**DIVERSITY
COMMISSION**

*Embracing diversity and
celebrating inclusivity*

TRAINING INVITATION

We invite you to take advantage of an offer for Diversity Training in your community. The Centers for Spiritual Living Diversity Commission has trained a group of excellent individuals to assist communities with this work by providing an afternoon training workshop in a loving safe environment.

For Centers for Spiritual Living to touch the greatest number of lives, it will need to attract people from a variety of ethnic and racial groups, genders, sexual orientations, physical abilities, and socio-economic class, as well as other areas of diversity. Centers that embrace diversity and inclusion experience growth, additional vitality and increased visibility.

Please send your request for one of our professionally trained Diversity Trainers to work with your Center or Church in identifying and increasing the experience of being an inclusive community that is welcoming to people of all backgrounds to: **csldiversity@gmail.com**.

We invite you to visit our website for more resources: **www.csl.org**, then click on programs and you will find us there.

Our Focus

Although we recognize the word, “diversity” includes many conditions in life, including but not limited to, diverse expressions in religion, age, sexual and gender orientation, and physical definition, the Commission is presently focusing on a greater inclusion consciousness around race and ethnicity. Look for programs and resources related to other areas of inclusion in the future.

Our Mission

In 2011 we started to vision for a Diversity Commission within Centers for Spiritual Living. Out of the visioning came the following Mission Statement:

To provide resources, education, and support in alignment with Science of Mind principles, creating and maintaining an atmosphere of inclusivity for all beings.

Our Vision

To awaken humanity to its spiritual magnificence to create a world that works for everyone.
